

The newsletter of HEYCO Metals

METALNews

Have you heard what's happening at Heyco?

Light gauge stainless strip, lightning fast.

Heyco Metals' ultra short lead times help manufacturers and distributors keep inventories lean while meeting unpredictable spikes in demand. Our custom-rolled products, precision-processed to exact specifications, have on-time delivery rates exceeding 95 percent.

With four decades of metal experience, Heyco is synonymous with industry-leading quality, rapid response, outstanding technical support, and reliable on-time delivery.

Need it fast? Need it right? Just say Heyco! For more information, visit HeycoMetals.com or call 800-57-HEYCO today.

Heyco Metals launches updated website.

Heyco Metals announces the launch of its updated website where visitors will find product information and documentation, description of services, links to industry resources and a U-Quote page for distributors.

"The updated Heyco Metals website should serve as a more dynamic and user-friendly resource for current and prospective customers," said William Barry, Vice President, Sales and Marketing for Heyco Metals. "The site allows us to regularly communicate our updated product offerings, in particular the expansion of our precision stainless steel line."

Check out the updated website at HeycoMetals.com.
