Heyco Stainless Steel shows up in some surprising places.

Our steel – available in gauges down to .002” – finds its way into products in a diverse range of industries, including oil & gas, solar energy, consumer products and more.

**GAUGES
DOWN TO
.002**

For example, top suppliers to the **automotive** industry continue to rely on us for the steel they need to develop ever-advancing technology in emission systems, fuel lines, safety devices, sensors, ornamentation and more.

Probably no field has more critical demands than **healthcare**, and Heyco stainless lives up to the challenge.

We're also showing up in consumer and commercial **electronics**. Makers of smartphones, cameras and computers have all found uses for our pristine-quality light gauge stainless steel.

Petrochemicals and related industries represent another growing sector that uses Heyco stainless steel on a daily basis.

Whatever your industry, Heyco can deliver light-gauge Stainless Steel to your exact specifications.
